

DATA DEPOT

SSA administers monthly surveys through our web site www.selfstorage.org. The responses to these surveys are featured in the Globe magazine. This month's survey focused on change in customer base and incentive programs, internet advertising and the number of company employees. If you have a survey question or idea for a survey, send them to Anna Canlas at acanlas@selfstorage.org.

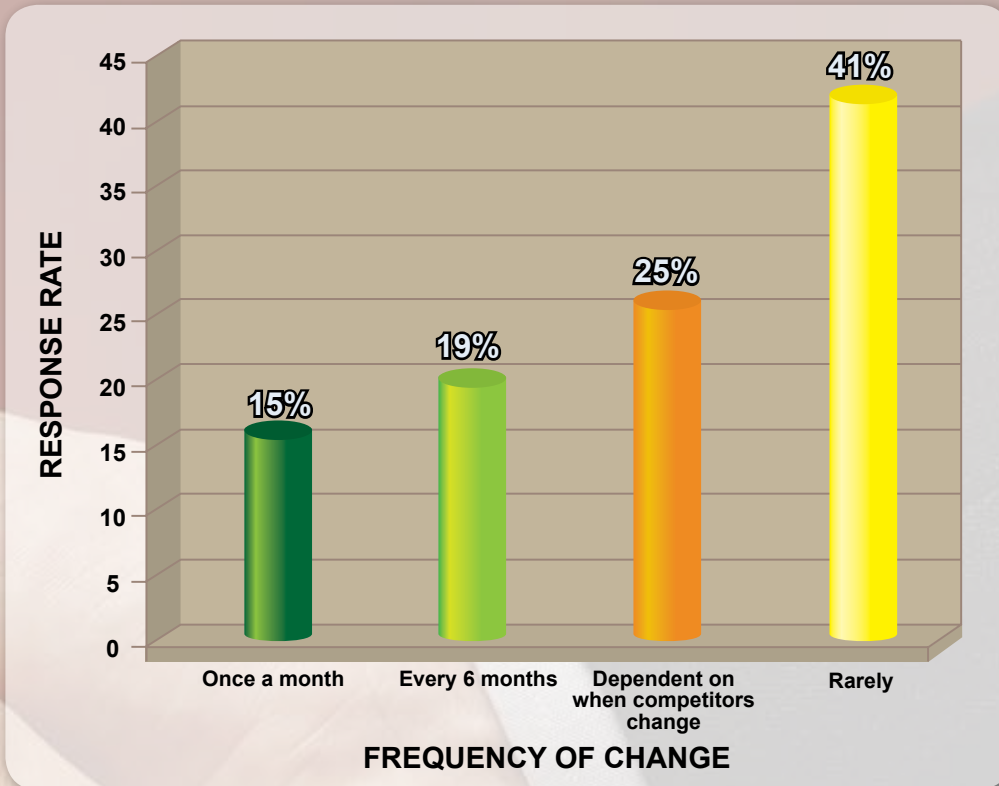

Have you seen an influx of change in your customer base?

How many employees are currently employed at your company?

How often do you change your incentive program?

With the economic downturn, would you say that you utilize the internet more for your advertising?
